Stock for sale

Advice and assistance from the designers

The opportunity to fly alongside the MicroAces team

* BMFA Membership is required for flying, flying slots will be available for non-MicroAces scale models which meet the BMFA Indoor Scale RC requirement.

Thanks to the MicroAces team, HWDMAC has booked the entirety of the main sports hall at Wycombe Leisure Centre for The MicroAces Big Hall Fly-in. The leisure centre is a bright, clean, and modern facility and, being **just off J4 of the M40 with plenty of parking**, it is a very convenient location.

The main sport hall is **60m x 34m with a 9m ceiling** (12 badminton courts) which gives us a flying area (60m X 26m) big enough that MicroAces models could almost get lost in.

Flying slots can be arranged for any of the following: Maiden flights, similar models e.g. only SE5a models, team streamer-cut combat, novices, formation flying, or pretty much **anything that you can persuade a few others to join in with.**

For those not yet blessed with a MicroAces kit it is **the perfect opportunity to see the models in action and get the first-hand experiences of customers.** There will also be a couple of flying slots open to scale models from other manufacturers.

Advance bookings only, tickets available from: <https://microaces.myshopify.com/>
